IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Patent Application  
Inventor: B. Gene Cawlfeld  
For: Megasonically Energized Liquid Interface Apparatus and Method  
Ser. No. 10/064,571  
Attorney Docket Number P-B021

**INFORMATION DISCLOSURE STATEMENT**

Pursuant to the duty of disclosure under 37 C.F.R. § 1.56, Applicant desires to bring to the attention of the Examiner known references believed to be material to the patentability of this application. This disclosure is made in accordance with 37 C.F.R. §§ 1.97 and 1.98 and § 609 of the *Manual of Patent Examining Procedures*, within three months of the electronic filing of the above-identified application.

No item of information contained in the information disclosure statement was cited in a communication from a foreign patent office in a counterpart foreign application, and, to the knowledge of the person signing the certification after making reasonable inquiry, no item of information contained in the information disclosure statement was known to any individual designated in § 1.56(c) more than three months prior to the filing of the information disclosure statement.

Copies of the cited references are enclosed. In keeping with the spirit of the Paperwork Reduction Act, Applicant has provided a legible copy of each reference as required by 35 CFR 1.98(a)(2) in the form of digital images encoded on a Compact Disc-Recordable (CD-R) disc. This form of "legible copy" is enumerated in 35 CFR 1.52(a)(1)(v) as one type of copy used by the Patent Office. The CD-R disc is labeled in accordance with 37 CFR 1.52 guidelines, although only one disc is provided. Duplicate discs will be provided if required.

---

~~The CD-ROM was created on an IBM-PC compatible computer using the Windows 98SE~~  
operating system, and contains the following files:

In the above-given list, the file for each granted U.S. patent is given a seven-digit file name reflecting the issue number of the respective patent, and each U.S. patent application publication is given an eleven-digit file name reflecting the publication number of the respective application publication. Digital color copies of the non-patent references are also included on the CD-ROM, along with black and white paper copies as a backup.

Applicant expressly reserves the right to question the relevancy and materiality of these references, in whole or in part, or in combination, subsequent to the filing of this Information Disclosure Statement.

Respectfully submitted,
